

MILEMARKERS

6-9 months old

How is your child doing?

Please check "Y" for YES (if your child can complete that activity independently) or "N" for NO (if your child still needs help with that activity).

If your child cannot do 2 or more of these activities in any category, then they may benefit from an evaluation.

<p>Physical Therapy Milestones</p>	<p>[Y] [N] Demonstrates head control in all positions [Y] [N] Tolerates tummy time at least 1 hour a day (accumulative) [Y] [N] Rolls from Back to belly & belly to back [Y] [N] Pivots around on belly [Y] [N] Pulls to stand [Y] [N] Able to get into a hands & knees position [Y] [N] Sits independently for play (9 months)</p>
